About this Qualification Specification

This Qualification Specification contains all the mandatory units and assessments you will need to complete as part of the qualification. As well as the mandatory units there is a choice of 'optional units' which form part of the qualification. These are available on our secure website. Your tutor or assessor will either supply you with copies of your chosen units or direct you to the relevant page on the website so you can download them. This Specification also contains extra information for your tutor or assessor.

How the qualifications work

These qualifications are made up of units each representing a small step of learning. This allows the qualifications to be completed at your own pace.

All of the units achieved can be 'banked'. This means that if you want to take another qualification which includes the same units you do not have to take them again.

Each unit has:

- a **level** - *shows how difficult it is*
- a **credit value** - *one credit represents about 10 hours' work*
- a **unit aim** – *explains what is covered in the unit*
- **learning outcomes** – *cover what you need to do (skills) or what you need to understand (knowledge)*
- **assessment criteria** – *what you need to show (evidence)*

Each learning outcome is linked to a number of assessment criteria. Evidence must be provided for all the assessment criteria to gain the unit.

Learning outcomes The learner will:	Assessment criteria The learner can:	Evidence record e.g. page number & method	Assessor judgement achieved Initial and date
1. Understand why effective communication is important in the work setting.	1.1. Identify the different reasons people communicate.		
	1.2. Explain how communication affects relationships in the work setting.		

Understanding learning outcomes

There are two main types of learning outcome:

- **Skills** that can be performed
- **Knowledge** that can be learnt.

Sometimes they can cover a combination of the two.

Competence / Skills based learning outcomes:

- Begin with 'Be able to'. The assessment criteria usually show that the evidence could be observable within a real work environment. Other methods may be applied (please see chart in Assessment Guidance section). All evidence must be based on the learner's experience in a real work environment.

Knowledge based learning outcomes:

- Begin with 'Know', 'Understand' or 'Know how to'.

For your convenience, Knowledge-only units are indicated by a lightbulb in both the Unit Achievement Log and at the top of the units.

If a unit is not marked with a lightbulb, it is a skills unit or contains a mix of knowledge and skills.

Section 4: Assessment and quality assurance information

Recommended assessment methods

A recommended range of assessment methods has been identified, which may be used for the units in these qualifications. This gives the opportunity for different learning styles and individual needs of learners to be taken into account.

If you are proposing to use an assessment method that is not included within the recommended list you should contact your Customer Quality Advisor with full details of your proposed method. It will need formal approval from us before it can be used.

Please refer to the notes relating to **Expert Witness testimony** and **simulation** which follow this table.

Ref	Assessment Method	Assessing Competence / Skills	Assessing Knowledge / Understanding
A	Direct observation of learner by assessor <ul style="list-style-type: none"> by an assessor who meets the relevant Sector Skills Council's or other assessment strategy/principles and includes inference of knowledge from this direct observation of practice 	Yes	Yes

- * **Expert Witness testimony** should be used in line with the relevant assessment strategy/principles. This method must be used with professional discretion, and only selected when observation would not be appropriate. Those providing an expert witness testimony must be lead practitioners with experience of making judgements around competence. The circumstances that may allow for an expert witness testimony include:
- when assessment may cause distress to an individual, such as supporting a child with a specific need
 - a rarely occurring situation, such as dealing with an accident or illness
 - confidential situations, such as Safeguarding Strategy meetings, where it would be inappropriate for an assessor to observe the learner's performance.
- ** **Simulation.** A learner's Portfolio of Evidence may only include simulation of skills where simulation is permitted by the relevant assessment strategy/principles.

Assessment strategies and principles relevant to this qualification

The units we offer have been developed in line with the specific **assessment strategies or principles** of different Sector Skills Councils (SSCs) or by us where there is no SSC lead.

The key requirements of the assessment strategies or principles that relate to units in this qualification are **summarised** below. More detailed strategies or principles can be found in “Delivering CACHE Qualifications – Assessment and Internal Quality Assurance Guidance”.

The Centre needs to ensure that individuals undertaking assessor or quality assurer roles within your Centre conform to the SSC assessment requirements for the **unit** they are assessing or quality assuring.

Skills for Care and Development Assessment Principles / Teaching Agency (formerly Training and Development Agency for Schools) Assessment Principles / NCFE CACHE Assessment Strategy

Knowledge learning outcomes

- **Assessors** will need to be both occupationally knowledgeable and qualified to make assessment decisions
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

Competence / Skills learning outcomes

- **Assessors** will need to be both occupationally competent and qualified to make assessment decisions
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

Staffing requirements

Centres delivering any of NCFE's qualifications must:
